ABOUT US

We are a leading manufacturer of indoor play equipment who, despite being grown-ups, haven't lost our sense of adventure, so we put a lot of passion into what we manufacture. Having started small in 2007 in Shanghai, China, we have installed over 2,000 projects around the world, and have grown to over 300 employees and become one of the biggest companies in the industry.

Boosting the most extensive product lines in the industry, we have now over 20 product series composed of over 300 individual pieces of equipment, with such versatility, we can suit the needs of all ages from toddlers to grown-ups, in settings from a small indoor area to huge amusement parks.

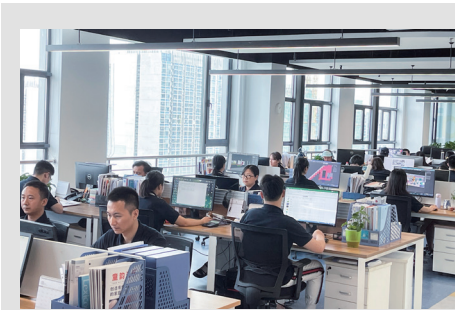

Our motto is "creating meaningful play for families", so every project we make is about more than just excitement. It's about creating an experience where all ages can get physical and social development as they play.

STRENGTHS

DESIGN AND ENGINEERING

Our designers work diligently to integrate our products and customer's environment into a unique solution for each client: making good use of space, making it look good and creating fun for the players. All of these serves but one purpose, to maximize our customer's revenue. The design is then developed with great care by our experienced engineers, so the finished product will be faithful to initial designs, and fully compliant with safety and quality standards.

MANUFACTURING

With six ISO-9000 certified facilities and over 20,000 square meters of production space, we keep all critical processes in-house and maintain strict quality standards throughout our production.

INSTALLATION

We have over 60 dedicated installation technicians who travel the world to install our indoor play equipment. They're trained in the unique skills that are needed in our industry and they're also true experts in our products. Our installation technicians are organized by a team of project managers who are on hand to help with any part of the process.

WARRANTY AND SERVICE

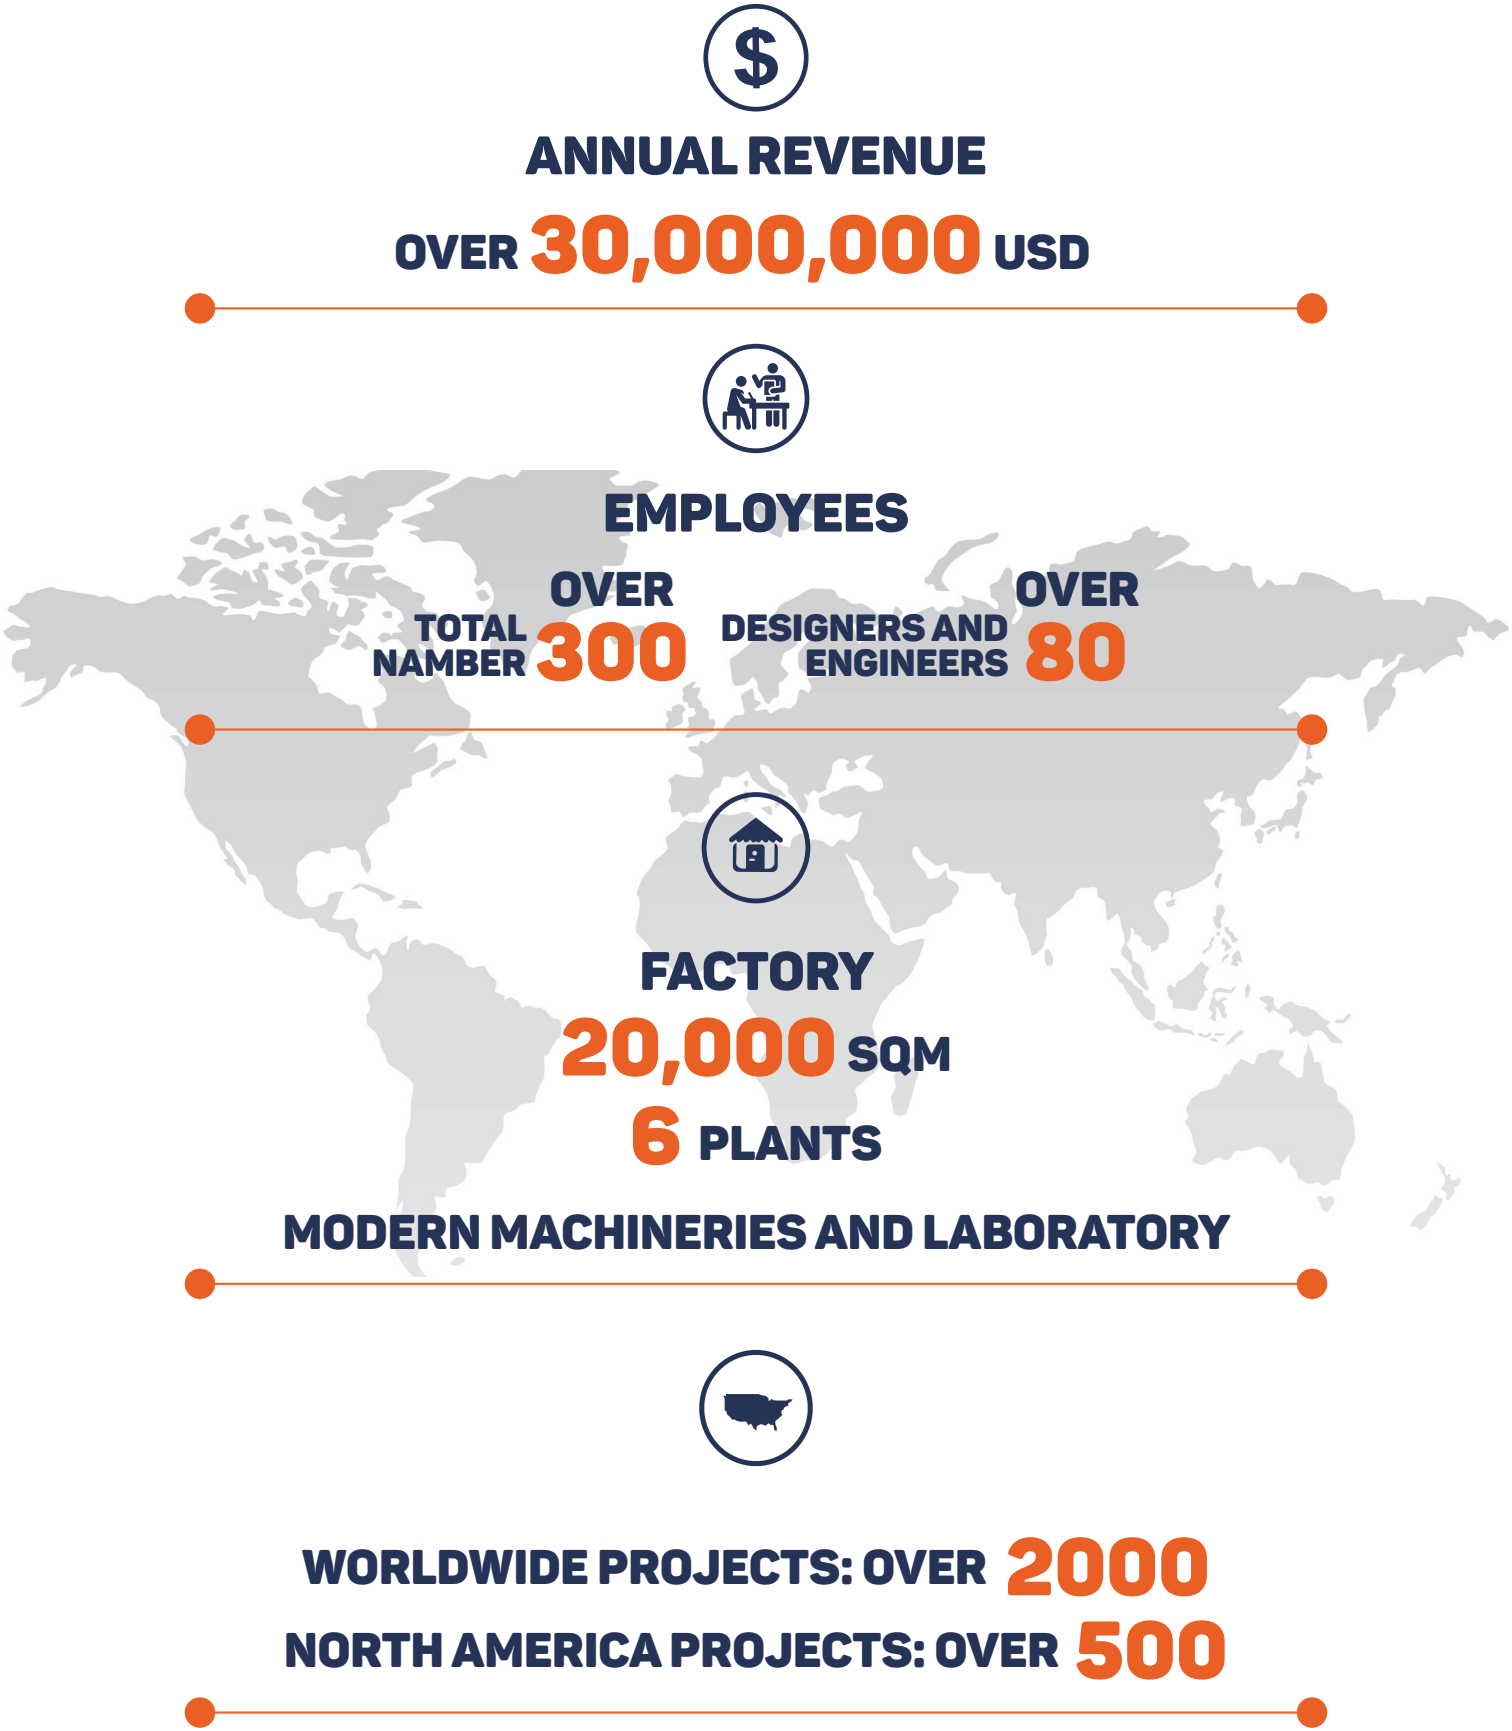

Our products are manufactured for a 10+ year lifecycle and come with an industry-beating 12-month globally serviced warranty. Our after-sales team inspect every installation and are there to support clients should they need any help with the equipment.

SAFETY

Safety always comes first at Funlandia, we adhere to all major safety standards in the world, ASTM, EN, CSA, and AS. Our materials and completed products are tested by the world-renown TÜV and SGS laboratories. Quality control is ensured at every stage from R&D through to final manufacture.

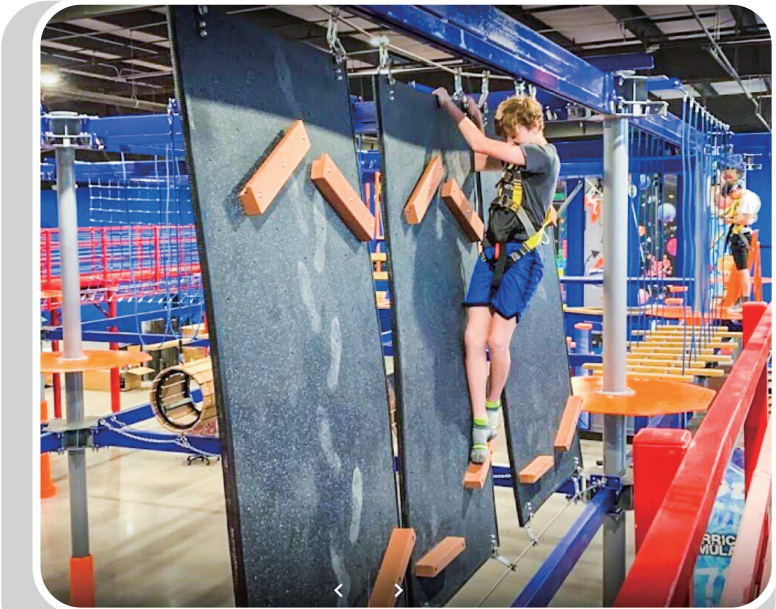

PRODUCT LINES

We now have two families of product: our Children Play line, and Adventure Play line. The rich product lines allow us to deliver comprehensive projects that are so versatile that they suit almost any customer profile, regardless of their age and budget.

CHILDREN PLAY LINE ▶▶

The Children Play line is designed for ages between 2 to 10, with an emphasis on fun and development of physical, cognitive and social skills.

ADVENTURE PLAY LINE ◀◀

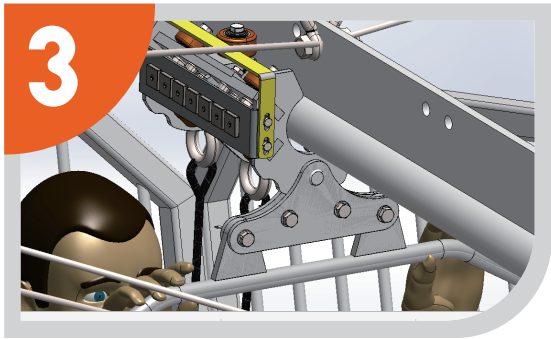

The Adventure Play line is more challenging, great for exercise and offers thrill for bigger children and adults.

PROCESS

MASTER PLANNING

Based on the client's goals of business, we draft layout and create concept that make the best use of all resources, all serving to the ultimate purpose – creating a successful business.

ENGINEERING

Our experienced engineers will further develop the design into CAD drawings that bear all engineering details, and guarantee it to be fully compliant with safety and quality standards.

INSTALLATION

Our professional team of technicians travel to the client's site to install the equipment, a team of project managers will help manage and coordinate the entire process.

DESIGN

We help clients choose the most suitable products and integrate them with the spatial design, ergonomically and aesthetically; at request, we also provide IP, theming, and interior design for the clients.

PRODUCTION

Using up-to-date machineries, our experienced staff manufacture the products while maintaining ISO9000 quality standards throughout the production process

MAINTENANCE

When the installation completes, our after-sales team will inspect installation and help to train client's staff on the maintenance; they are also on call 24/7 should any help is needed with the equipment.
